FIRST ACT OF WARFARE

Spanish Merchant Men Captured by Cruiser Nashville.

TAKEN AS PRIZES TO KEY WEST UNDER CONVOY.

Key West, April 22—[Special]—The first act of war was performed this morning by the cruiser Nashville, which captured the Spanish-merchantman Buenaventura seventeen miles southwest of here. The captured vessel was brought to this port by a prize crew.

[The Spanish vessel was sighted shortly after the fleet departed. The Nashville left the squadron and gave chase. A shot was fired across the merchantman's bow, but no attention was paid to it. As the Nashville drew nearer, another shot was sent close to the Buenaventura's bow. This time it had the desired effect. The vessel's engines were immediately reversed and the Spanish flag hauled down.

A prize crew from the Nashville then boarded the captured vessel and took charge of the ship's papers. A few minutes later the Nashville and her prize were headed for this port.]

Second Supply Ship Captured

Washington, April 22—(Special)—The Spanish vessel Gracia, loaded with supplies for the Spanish forces in Cuba, is believed to have been captured by the North Atlantic squadron.

The Start.

Key West, April 22—Save one or two recalcitrant jacks whose conviction patriotism had run away with their sense of duty, there was not a striking man to be found in town. The theater of action was transferred to the harbor where a glittering panorama was enacted until daylight appeared slowly over the waters of the gulf. For many days past the flagship majestically swung at anchor about seven miles, outflanked by her gorgeous sisters, the Iowa and the Indiana.

To the eyes of Key West the great smokestacks were barely visible while the hulls lay like indefinable shadows in the distant waters. The inner harbor, however, offered a striking picture, crowded as it was with monitors, cruisers, gunboats and little, but sinister torpedo boats flitting noiselessly in and out of the maze of greater vessels lying at anchor.

Signals of Portent

The Puritan and Helena joined in the incandescent conversation and soon the skies were kaleidoscopic as ship after ship answered new lights flicked messages fraught with the gravest import and creative of history. What words of course no one ashore knew, but the few who watched with straining eyes from sea and docks, need no interpreter to tell that it meant hostile action.

The sky was growing gray with the coming dawn when the formidable family of destroyers quietly and unostentatiously steamed away, presumably for the shores of Cuba.

Besides the monitors Terror and Puritan, the ships left behind are the gunboat Helena, the cruisers Marblehead and Detroit, the dispatch boat Dolphin, and the torpedo boats Cushing, Dupont and Porter.

Expectancy Realized

When twilight fell last night this scene was unchanged. The signalling between the distant trio of ships and those closer to shore had been the custom ever since the assemblage of the fleet here, but last night varicolored lights glimmered their message across skies almost without cessation.

The first streaks of the morning light were crossing from the east and two bells just sounded from the ships, when a tiny, and to unfamiliar eyes, an almost imperceptible line of fire appeared on the sky above where lay the flagship.

A moment or two after and the signal staff of the Cincinnati lying off Fort Taylor in the inner harbor flashed into colored light, acknowledging the call.

Throughout the long night unusual activity on the vessels of the fleet; told weary watchers on shore that the long-awaited advance on Havana was near at hand, yet there was nothing official on which to found the belief.

The Orders to Start.

Early last evening came the first realization of the fact that the tedious period of inaction was nearing its close. When the signals were hoisted recalling all the men to the ships

without delay, many interpreted this as a precautionary measure, especially in view of the fact that a number of officers, including several from the flagship, remained ashore, and had leave for the night.

About 11 o'clock there occurred a decided change in the situation when a special boat hurried from the flagship with orders to all ashore to immediately return to the ships. Midnight found the city empty of gold braid and blue jackets with which all had grown so familiar.

At 5:45 this morning at a given signal the entire fleet, with the exception of the monitors noted above, began to move. The giant engines throbbed in unison, the black smoke poured in dense clouds from the funnels, and in half an hour all the boats of the fleet were outside the harbor headed towards Cuba.

IN MISSIONARY FIELDS.

Miss Wright Talks On Conditions in Non Christian Countries.

Miss Mary Page Wright addressed a goodly assemblage of women at the Congregational church parlors yesterday afternoon on "Women in Non-Christian Countries." Her remarks related chiefly to the women of India, and were made doubly interesting by the collection of articles, such as women's headresses, which she had brought to this country with her. The Ladies' Missionary society under whose auspices the meeting was held, served an appetizing picnic supper at 6 o'clock. At a prayer meeting service in the evening Miss Wright spoke to a large and deeply interested audience, her subject being "Armenia." Miss Wright was a teacher in Armenia for eight years and was stationed among the scenes of the recent horrible massacres.

This afternoon Miss Wright will speak to the Wideawake Circle of King's Daughters. The meeting will be held in the Congregational church parlors at 4 o'clock.

FIRST REGT. SENT HERE.

Many Soldiers Will Be Massed In This City.

FAIR GROUNDS TENDERED FOR A CAMPING PLACE.

Until late last night the officers of the Light Infantry were in conference in the Armory. They were discussing lines of action to be taken in conformity to orders brought to Captain Hanson from Madison.

The notification from Madison was to the effect that the First Regiment would rendezvous in Janesville when called out and would probably be here a week drilling and receiving tents, clothing and supplies.

Madison Wants The Camp.

According to telegraph reports Madison has been anxious to have the regiment assemble there, but Janesville is regarded as much more available on account of its central location. Madison has offered the inducement of ample camp ground free of charge. It was suggested this morning that Janesville would be prepared along that line without any conference; and that the state might confidently count on the tender of a suitable location in this city.

Third Moves First

The Third Regiment is the first of the Wisconsin regiments to be called, this decision being made on account of the seniority of the commanding officer. The Second and First followed in the order named.

Instructions given in Madison yesterday afternoon were to the effect that the Wisconsin troops would be mobilized at Oshkoshnaugus.

Arrangements were made this morning to call the Light Infantry out by twelve strokes on the fire bell repeated three times whenever the call from Madison should come.

Two taps of the fire bell at 4:15 this

morning called members of Company A to the street. The alarm was caused by crossed wires, but the boys did not sleep much the rest of the night.

The Fair Grounds Tendered

Mayor Thoroughgood in behalf of the city of Janesville sent a telegram to Gov. Scofield this afternoon offering him the use of the fair grounds for the mobilization of the First Regiment. J. M. Bostwick, the owner of the grounds, offered the use of the property at once, when he heard of the situation.

Late this afternoon Mayor Thoroughgood received this dispatch from Governor Scofield:

"Many thanks for your offer. If necessary arises will accept."

Several Janesville men have filed their names with Captain Hanson for conditional enlistment. They are to join the company at once when war begins.

So far nobody in the company has asked to be excused from active service, although men with families are not urged to go to the front.

Dr. Joe Whiting went to Milwaukee this morning to equip himself for field duty as surgeon with the First Regiment.

Examine the Men of Co. A.

The Light Infantry will assemble at 7:15 and then will be notified that each member must undergo medical examination. The examination will be made tonight in obedience to dispatches from Madison.

All applicants for enlistment are asked to report at the armory this evening or see Captain Hanson as soon as possible.

Thomas Hess, the car robber who is now serving a six months' sentence in the Rock county jail, is patriotic these days, to say the least. He has notified the jail officials that in case war is declared with Spain he will enlist in the United States navy if given his liberty.

Hess is about as well yested a man as there is in this city, when it comes to talking naval affairs. For several years he led the life of a seaman, visiting many of the leading ports of the world.

The present chances are that Hess will continue to do duty at the jail until his sentence expires.

The battleships Iowa and Indiana, and the flagship New York started first, followed by the cruiser Cincinnati and the monitor Amphitrite. Y. M. C. A. PHYSICAL TRAINING

Special Announcement to the General Public

The Young Men's Christian Association of Janesville is now entering upon a permanently established basis of work with all departments under proper management and control.

It is the policy of the board of directors, together with the general secretary and physical director, to so develop the all-around work of the local association, that it will enlist the sympathy and interest of all citizens as an aggressive power for good in our community, binding together our boys and young men to co-operate in the great variety of social, intellectual, physical and spiritual work as they may choose for themselves.

Owing to a partial misunderstanding among the association members aside from the directors, I wish to state that I have secured an excellent man to come in September to take my place in the physical work until my graduation in June. The man under consideration is J. F. Rudolph, a senior in Oberlin college, and from long association with him in the gymnasium and on the athletic field I can strongly recommend him.

Mr. Rudolph has been the most prominent gymnast and class leader in Oberlin for several years, has played quarterback on the Oberlin Varsity football eleven, and is an excellent coach in this and all other outdoor sports.

He is captain of the '98 gymnasium team and present manager of track athletics.

In all-around athletic work Mr. Rudolph stands very high, and any association may count itself fortunate in securing him for physical work.

INTEREST ON THE INCREASE

Attendance at Court Street Revival Services Continues Large.

It rained last night but that did not keep the people away from the services at Court Street M. E. church. The lecture room was nearly filled.

Rev. E. D. Hall preached a sermon on "The Judgment," the argument being extra-biblical. Man can choose between extremes. Choice means responsibility; responsibility means accountability. To whom are we accountable? To God. We all feel that we are accountable. To say that we are not accountable for what we did would be insulting. Tonight the pastor will preach. A good gathering is expected, as the tide of interest has slowly but surely been on the rise. Large Sunday services are expected. Notices of these will be given in full tomorrow.

Atlantic Monthly For May

NO SUMMER SCHOOL HERE

Educators Abandon the Project for Good and Sufficient Reasons.

There will be no summer school conducted in this city this summer at the High school building. This step has been definitely decided on by those who had the school in charge last year. Professor D. D. Mayne, is speaking of the abandonment of the project for this summer, says that as the state university will cover the same field with a much more complete course and at a cost of \$5 less than one would pay here, the local managers deemed it best to cancel the school here for this summer. Several of the local teachers are planning on attending the school at Madison.

REGAINED HEALTH.

Gratifying Letters to Mrs. Pinkham From Happy Women.

"I Owe You My Life."

Mrs. E. WOOLMIRE.

Mills, Neb., writes:

"DEAR MRS. PINKHAM:—I owe my life to your Vegetable Compound. The doctors said I had consumption and nothing could be done for me. My menstruation had stopped and they said my blood was turning to water. I had several doctors. They all said I could not live. I began the use of Lydia E. Pinkham's Vegetable Compound, and it helped me right away; menses returned and I have gained in weight. I have better health than I have had for years. It is wonderful what your Compound has done for me."

"I Feel Like a New Person."

Mrs. GEO. LEACH.

1609 Belle St., Alton, Ill., writes:

"Before I began to take your Vegetable Compound I was a great sufferer from womb trouble. Menses would appear two and three times in a month, causing me to be so weak I could not stand. I could neither sleep nor eat, and looked so badly my friends hardly knew me."

"I took doctor's medicine but did not derive much benefit from it. My druggist gave me one of your little books, and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I feel like a new person. I would not give your Compound for all the doctors' medicine in the world. I can not praise it enough."

WITHOUT PAIN

A Medical Discovery That Effectually Cures Piles in Every Form.

For many years physicians have experimented in vain, seeking a remedy which would effectually cure piles and other rectal troubles without resorting to a surgical operation. Many remedies were found to give temporary relief, but none could be depended upon to make a lasting, satisfactory cure.

Within a recent period, however, a new remedy, the Pyramid Pile Cure, has been repeatedly tested in hundreds of cases and with highly satisfactory results.

The first effect of the Pyramid Pile Cure is to instantly remove the pain and irritation generally present, and from that time on the cure rapidly progresses and before the patient is hardly aware of it he is entirely cured. The remedy seems to act directly on the nerves and blood vessels of the parts affected as it comes into direct contact with them and sets up a healthy action, which in a perfectly natural way brings the parts to their normal condition.

The remedy does its work without any pain or inconvenience to the sufferer, and is justly considered one of the most meritorious discoveries of modern medicine.

Piles is one of the most annoying and oftentimes dangerous diseases with which humanity is afflicted. If neglected it frequently develops into fistula or some equally fatal or incurable trouble, whereas by the timely use of this simple but effective remedy, no one need suffer a single day from any form of piles unless they want to.

The Pyramid Pile Cure is perfectly harmless, containing no mineral poisons, and is also very reasonable in price. It is sold in drugstores everywhere at 50 cents per package. The manufacturers of the remedy are the Pyramid Drug Co. of Marshall, Mich., who have placed this excellent preparation before the public only after giving it thorough and repeated tests in the hands of reputable physicians. The results in hundreds of cases have convinced us that it will not disappoint you.

Dreadfully Nervous.

GENTS:—I was dreadfully nervous and for relief took your Karl's Olover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

NOW IN FRONT OF HAVANA.

North Atlantic Squadron Blockading That Port.

THE CITY IS TO BE TAKEN.

Admiral Sampson Will Bombard It If Necessary—President and Cabinet Decide to Act Without Delay—No Time Wasted.

Washington, April 22.—Without a formal declaration of war, the North Atlantic squadron is on its way to Havana to blockade that port, and to bombard it in case of resistance.

There has been much talk and discussion of a formal declaration of war, but it has not been considered necessary at this time, nor until there has been an actual exchange of shots. The ultimatum of this government was served on the Spanish minister Wednesday morning, but Minister Woodford was notified that all diplomatic relations were severed before he could present the ultimatum to the Spanish minister of foreign affairs at Madrid.

The state department knew of this diplomatic trick contemplated by Spain, and for that reason served its ultimatum on Minister Polo before the president had signed the resolutions of congress. The president knew that if he signed the resolutions before he sent the ultimatum that fact would at once be cabled to Madrid, and Woodford would be dismissed before he could present the ultimatum. For some reason Minister Woodford was again caught napping, probably through no fault of his own, as it is suspected that the Spanish censor held his telegram from Secretary Sherman until Minister Polo's telegram was received to the effect that the resolutions had been signed, the ultimatum sent, and the Spanish minister here had asked his passports. But for the suspicion that this was the plan of Spain, and the sending of the ultimatum to Minister Polo before he asked for his passports, the president would have been unable to present his demand to Spain, except, perhaps, by posting it in a conspicuous place in Cuba or in Spain. But the service of the ultimatum on Minister Polo saved this embarrassment.

When the president received Woodford's message that diplomatic relations had been severed by Spain before he could present the ultimatum to the Spanish ministry, he did not hesitate as to the next step that should be taken. He had a conference with Senators Davis, Lodge and Cullom of the foreign relations committee, and Senator Allison; called a special meeting of the cabinet, and at 2 o'clock Secretary Long of the navy gave the order for the North Atlantic squadron at Key West to sail for Havana and blockade the port. Notices were prepared to be sent to all other governments announcing that Havana was in a state of blockade and that no ships would be allowed to enter or depart.

Captain Sampson sailed from Key West at 4 o'clock Thursday and is in front of Havana. To-day the blockade begins, and it will be a peaceable blockade if the Spanish forts at Havana submit.

The navy department and the state department do not expect the Spanish to submit. They expect the forts to fire upon the fleet, and the fleet will return the fire. The forts will soon be silenced, and then General Blanco will be ordered to surrender and command to withdraw from the island. If there is further resistance Havana will be bombarded until there is surrender.

Should the fleet not be fired upon by the Spanish forts the blockade will continue without further hostile demonstration from Captain Sampson's squadron, and the ships loaded with supplies for the starving will follow at once and enter upon their errand of mercy. But these supplies have not yet been sent, and may not be for a day or two, or until it is known whether there is to be active war at Havana or only a blockade.

The president does not desire a formal declaration of war on Spain until Spain has fired upon our navy. In armed intervention in Cuba he is not declaring a general war on Spain, and would not go beyond Cuba, but after an exchange of shots with Spain first firing upon our navy, the war will be on, and congress will pass a formal declaration of war between the United States and Spain. Then all Spain has and is becomes the enemy of this government and Porto Rico, Cape Verde islands, the Philippines, and Spain herself will become the object of warfare by the American navy. The flying squadron has left Hampton roads and will be ready to meet the Spanish fleet or take Porto Rico, and, if necessary and possible, will go on to other Spanish possessions.

THE WOOL INDUSTRY

The Omaha Bee says: "No industry has realized greater benefit from the present tariff than that of wool growing and this notwithstanding the fact that there were enormous importations of wool before the present law went into effect. According to statistics just compiled by the treasury department in the past seven or eight months the wool growers of the United States have wrested the American market for fleeces of the best grades from foreign importers and now have control of it. It appears from the treasury statement that the importations of the grades of wool grown in this country are at the lowest level in many years, while of the cheapest grade, which is scarcely grown here at all, the importation has not materially fallen off. The figures given are for the month of January of the last three years, which show that while the importation of class 1 in January, 1896, was in excess of 11,000,000 pounds, in January of this year it was only a little over 2,000,000 pounds, and the falling off in the next highest grade was no less marked.

There is still a large quantity of foreign wool in warehouses, it having been estimated that there was a two years' supply on hand when the Dingley law went into effect, so that it is reasonable to assume that when this stock is used up the American market will take every pound of wool produced here at better prices than now. As it is our wool growers are having a good market at better prices than have ruled before for several years. Thus this very important industry, which was most disastrously affected by the Democratic legislation placing wool on the free list, is steadily recovering and promises to attain within the next year larger proportions than it has ever reached.

It would be somewhat difficult to compute the benefit to the wool growers of the United States and to the farmers who raise sheep from the present tariff, but it has put tens of millions of dollars into their pockets. The good effects of the wool duty have been especially felt in the west—in Wyoming, Montana, Utah, Idaho and California—whose people engaged in the wool industry are rapidly recouping the losses sustained under the operation of the democratic tariff.

At the same time the consumers of woolen goods are not experiencing any hardship from an advance in prices, for there has been no material advance. Clothing is about as cheap as a year ago, and so of prett, much everything else. The idea that free wool would be a great boon to the consumers of woolen goods was shown to be a fallacy, but the prediction of that policy would be destructive to the wool industry and of sheep husbandry was most conclusively verified.

STRIKE UTTERLY FAILED.

No Advance in Wages Gained By the Chippewa Falls Strikers.

Chippewa Falls, Wis., April 22—It appears that the statement of the strikers made to the press Tuesday evening that the company had settled by granting them an advance of 15 cents a day in wages was erroneous. No concessions whatever were made. The men returned to work at the old scale and the strike was fruitless of results. Manager Irvine says that if the conditions of the lumber market change and the lumber advances the wages will be increased, but at present they will remain the same as last season. The board of arbitration advised the men to go to work. Nothing was submitted to them for arbitration.

WILL MASS TROOPS IN JANESVILLE

PLANS FOR MOBILIZING THE FIRST REGIMENT.

Captain Hanson's Instructions Cover the Course to Be Taken By Janesville Militiamen—Twelve Strokes On the Fire Bell Repeated Three Times the Signal.

Adj. Gen. Boardman sent telegrams to the captains of all the companies of the Wisconsin National guard asking them how many of the men in their respective companies will volunteer in case there comes a call for troops.

The answers to these inquiries will give Gen. Boardman and the governor an accurate knowledge of the number of National guardsmen who will be available for service. Multitudes of the former members of the national guard have written to Gen. Boardman and Gov. Scofield offering their services, and these could be used to fill the number of the regiments to the maximum allowed by law.

He hopes to have one company of cavalry filled by Saturday night. Yesterday the roster included fifteen members.

Racine at the Fore.
Racine, Wis., April 22.—F. of the First Infantry, W. N. G., held a meeting last night that was partly in celebration of the departure of the North Atlantic squadron from Key West and of the prospects of the National guard being called into action. The members voted unanimously that the entire complement of the company, sixty-five men, would be ready to move in an hour and a half after receiving orders. Bonfires were started by the company and a general jollification held. When Captain Lewis read the telegram from General Boardman and asked how many men were willing to go, the entire company stepped forward. Captain Lewis telegraphed General Boardman that he could guarantee a company of 100 men by Saturday.

Estimated Strength of the Guard.
Gen. Boardman made an estimate today, based on the dispatches in the morning papers, that about four-fifths of the Wisconsin National guard as at present constituted would be required from this state. There are at present 2,400 men. As there are about 10,000 men who have formerly been members of the guard and received military training, the number of efficient troops which the state could put into the field is far greater. Gen. Boardman says that the state authorities have no information on which to base any belief whether or not the regiments as at present could be mustered into the service of the United States. The Wisconsin regiments are all three battalion regiments and have more field officers than are allowed by the National military organization. It is expected, however, that the Hull act will provide that the state troops can go into the federal service in their present organization. There is believed to be considerable opposition among the National guardsmen of the state to being commanded by other than their present officers and to working under other than their present organization.

Full Company From West Superior.
West Superior, Wis., April 22.—Captain Newton of Company I, W. N. G., tonight wired Adj. Gen. Boardman that a full company of sixty men offers its services as volunteers to the government. This was done in answer to the message from the adjutant general asking if the company will volunteer, retaining guard organization. A vote was taken of the members and only two members held back. Their places were more than filled by anxious spectators.

Sheboygan Responds.
Sheboygan, Wis., April 22.—Captain Goldschmidt of Company C, promptly responded to General Boardman's telegram, that every man would go. The company numbers sixty-five men and they are not afraid of the climate of Cuba or of any kind of a rainy season.

Griffin Rifles Ready.
Eau Claire, Wis., April 22.—In reply to the inquiry from Adj. Gen. Boardman, Capt. Ballard, commanding the Griffin rifles, third Wisconsin infantry, wired last night that the whole company will volunteer. The adjutant general's message had been read to the company at the armory and was met with enthusiastic hurrahs. Capt. Dally, of the Milwaukee battery, was present, made a speech and was received with cheers. Several thousand people cheered themselves hoarse at the Omaha station last night, when two trains carrying the Tenth cavalry went through.

Marquette is Ready.
Marquette, Wis., April 22.—Co. 1, Second regiment, W. N. G., volunteered to a man tonight for war. They assembled in an hour after a query was received from Adj. Gen. Boardman, asking if they would do so. The call was circulated by means of mill whistles, the blowing of which caused great excitement in the city. Cheering crowds surrounded the armory where the members of the military company were singing "My Country 'Tis of Thee."

Will Go As Nurse.
Aside from the regular nurses, the first Milwaukee woman to offer her

services to the government for military hospital duty is Miss Kate Pier, the young lawyer who won her way not only to the supreme court of this state, but to the highest judicial body in the country. She has already sent her name to the adjutant-general at Madison and is ready to go whenever and wherever she is needed.

Miss Pier's action is no surprise to those of her friends who know of her fondness for medicine and surgery as well as her patriotism. For some years she has spent her spare time in medical studies, not with a view to becoming a practitioner, but merely because she enjoyed them and wanted the knowledge they gave her. In addition she has had more or less hospital experience, both in the old Emergency hospital and in others of the city.

NEW LINE TO MILWAUKEE

Second Metallic Telephone to the Cream City Is Projected.

This city is to have another new metallic telephone line between here and Milwaukee. The visit here this week of General Superintendent E. B. Cottrill and Superintendent of Construction Gallagher resulted in this decision, and the work of construction will commence before many days. Business of late between here and the Cream City has been steadily on the increase with the telephone, till now the company finds itself unable to handle the business over one metallic line.

State News in Brief.

At a meeting in Baraboo Thursday night it was decided to apply for a charter for a Sons of Veterans' camp. Fifty-three names were placed on the roll, and many more will be added. Louis Dauterman, the Appleton young man who has been asleep for nearly seven days, is dying. The physicians have practically given up hope. They are puzzled over the case, though it is thought to be one of poisoning from the paints which the man used.

The Board of Directors of the Madison Y. M. C. A., will pay \$5,500 for a lot on Milfill and Fairchild streets and will erect a building to cost \$30,000.

EVENTS IN LOCAL SOCIETY CIRCLES

FAREWELL RECEPTION TO REV. H. W. THOMPSON TONIGHT.

His Friends an Army Comrades Will Greet Him at the Armory—Parties and Receptions of Janesville People—Quiet Wedding at St. Patrick's Church.

At the Armory this evening a farewell reception will be given to Rev. H. W. Thompson, recently pastor of the First Methodist church. Although W. H. Sargent Post G. A. R. originated the idea the friends of Mr. Thompson generally have taken hold of the affair, and it will not be confined to any particular class. The Woman's Relief Corps, members of the Light Infantry, the drum corps and old veterans who do not belong to any organization, will all unite in the demonstration.

The exercises at the Armory will consist of music by the Y. M. C. A. band, the drum corps and the male quartette, consisting of E. O. Kimberley, D. D. Bennett, Archie Crawford and H. C. Buell. There will be brief remarks by Capt. Pliny Norcross, Rev. E. H. Pence, Rev. Walter A. Hall, Malcolm G. Jeffris, Dr. James Mills and Dr. J. B. Whiting; recitations by Miss Genie McDonald and Little Estes Hardy. The Light Infantry will also introduce the "Awkward Squad." Those intending to participate in the demonstration should be on hand at 8 o'clock sharp.

Class Reception.
All members of Mrs. L. P. Dearborn's private dancing class were entertained last evening by Mr. and Mrs. Frank E. Field at their home, 201 North Jackson street.

The feature of the occasion was the dancing of the German by the children. The party was given in honor of the closing of a very pleasant and successful winter's work. Light refreshments were served and the young couple had a very delightful time.

Will Play Ball.

The basket ball game between the girls' team of the Janesville High school and a team from the Young Women's Athletic association, which was originally planned for this evening, will be played in the High School gymnasium, Monday afternoon after school. The game will be called at 4:15 o'clock and will doubtless draw a large audience of those who enjoy seeing young girls play this very exciting and interesting game.

Clinch Party.
Mr. and Mrs. Hiram D. Murdock entertained a clinch club at their home, 158 South Main street, last night. The prizes fell to Mrs. Charles Tarrant and Charles D. Stevens, while Mrs. C. D. Stevens and Fred J. Bailey were given the consolation prizes. Light refreshments were served.

Clough-Horn Nuptials.

On Wednesday evening Miss Mae Horn and John Clough were quietly married at St. Patrick's church. Rev. J. J. Collins performed the ceremony. The bride was attended by her sister, Miss Elizabeth Horn, and Frank Horn acted as best man. Both the bride and groom are well and favorably known in this city. The young couple will reside with the groom's parents, Mr. and Mrs. James Clough, No. 220 Gold street, for a time.

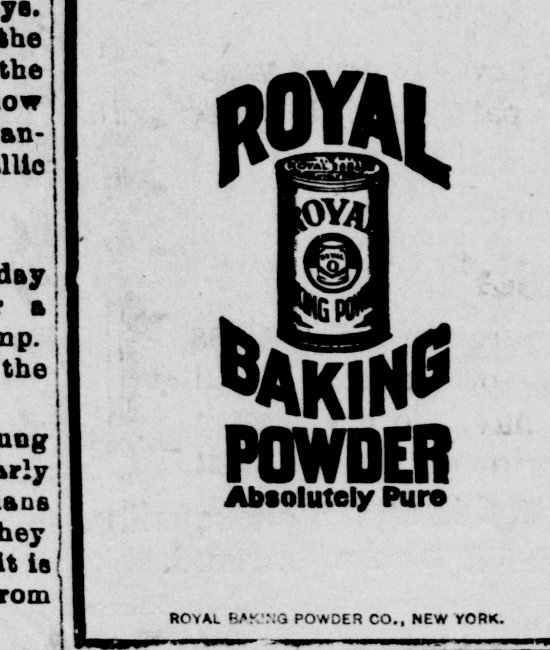

MEMORIAL DAY OBSERVANCE

Plan Will Be Discussed by the Grand Army Post Tonight.

Plans for memorial day will be discussed by members of the local G. A. R. post at a meeting to be held this evening. The day this year will be observed as in the past with a parade to the cemetery, to be followed by speeches and the decorating of graves. For several years back the Grand Army Post of this state have been making an effort to have memorial day more exclusively devoted to the observances for which the day was originally set aside. Each year they have deplored the ever growing tendency to devote the day to sports and pastimes, and have asked that the public by the influence of its opinion frown down this tendency to drift away from what they consider the proper observance of the day, i. e., the honor of the dead heroes of the recent war.

John Shepherd Dog, an Indian who says he is 100 years old, was cared for at the Oshkosh police station last night. He brought some skins to the city and walked twenty-five miles.

HOTEL DAVIDSON, Milwaukee, Commencing April 1st, the Hotel Davidson will make an American Plan Rate, to State people from \$2.00 to \$2.50 per day, without bath, and \$2.50 to \$3.00 with bath.

DRESSMAKING HAS A BOOM

The Many Weddings of the Spring Have Benefited the Modistes

First class dressmakers have been in great demand in Janesville this spring and the wages they have been paid have been equal to that paid skilled workmen. A prominent east side artist in this line of work says that the numerous weddings this spring have had much to do with booming their business.

"I have had more work than I could possibly attend to," said this east side lady, "and I know that this same state of affairs exists with the other dressmakers who know their business."

THE SEASON IS BACKWARD

There is Yet But Little Demand for Soda Water and Ice Cream

This kind of weather for the month of April is not pleasing to the majority of the business men about town. Sunshine is what is wanted, coupled with warm weather. At this time last year several of the drug firms were doing a thriving soda water business, while so far this year but one fountain has dared to resume business. Manager Henry Tall, of the City Ice company, says they are selling but little ice these days compared to the same month last year.

Two ways

to use up clothes—rubbing them on a washboard, and washing them with harmful things. Unless you want to waste money, don't do either. Use Pearlina. Use Pearlina rightly, and there's no washboard needed. No rubbing to speak of. No wear. No hard work. As for the safety and utter harmlessness of Pearlina, let its twenty years of uninterrupted and constantly-growing success talk. Anything that hurts or weakens the clothes couldn't be used, year in and year out, by millions of careful women.
